

MLT-42-W

Watertight Compact Inspection Robot

REMOTE INSPECTION

This robot can go places you just can't access easily, or want to avoid entering. Inspect the inaccessible!

REDUCE RISK

Reduce potential exposure to spills, gases, and harmful molds. Send your robot in and remain at a safe distance.

RECORD FINDINGS

Record video and photos of your inspection for latter planning and review.

COMPACT FRAME

This platform is ideal for inspecting pipelines, storage tanks, and other areas too tight for humans to access.

SPECIFICATIONS

DIMENSIONS AND FRAME

Dimensions (L x W x H)	17" x 13" x 11.5"
Weight	24 lbs
Ground Clearance	1.25in
Chassis	Watertight Aluminum Body
Drive System	Seamless Rubber Tracks

SPEED AND DRIVE

Top Speed	100 FPM (1.14 MPH)
Drive Method	Direct Drive

BATTERIES AND POWER

Battery Type	25.6V LiFePO4
Runtime	Up to 3 hours

HARDWARE & ACCESSORIES

Controller	Enclosed Case Remote (ECR)
Connection Type	Remote Control & Tethered
Range	500ft
Lights	Camera Mounted LED Lights

CAMERA SYSTEMS

Camera	30x Optical Zoom with 360° Pan/Tilt
Media Storage	Located in ECR
